PROFILE

I am a CSE student passionate about web development, Artficial Intelligence, Deep Learning, and Java. I enjoy exploring innovative solutions, designing responsive websites, and working on challenging coding projects. Learning new technologies and applying them to solve problems motivates me.

WORK EXPERIENCE

2024 - PRESENT
CPS Academy
Software Engineer Intern

- Building the first webapp for students to learn competitive programming in CPS Academy.
- Startup first webapp building from scratch using Strapi and Nextjs and only developer in team.
- Develop and execute comprehensive challenges and implementing features based on user demand
- Team collaboration and learning from my mentor in a very co-operative environment

2022-PRESENT
Islamic University of Technology
Engineering Student

- Develop and maintain software applications, ensuring robust functionality and seamless user experiences.
- Conduct research to explore emerging technologies, frameworks, and algorithms in the field.
- Collaborate with teams to design, implement, and optimize scalable system architectures.
- Monitor and enhance code performance, security, and quality to meet project requirements.

EDUCATION

2022-PRESENT
ISLAMIC UNIVERSITY OF TECHNOLOGY

- Bsc in Computer Science Engineering

2019-2022

NOTRE DAME COLLEGE

- Higher Secondary Certificate
- GPA 5.0 out of 5.0

SKILLS

- Git and Github
- Nextjs Framework
- Spring Boot
- Nodejs
- Python
- Competitve Programming
- Deep Learning

ACHIEVEMENTS

Finalist
Therap Javafest 2024

Founding Engineer
CPS Academy Stratup(More than 5k students now)

CO-CURRICULAR

- IUT CSE Team Goalkeeper
- IUT Computer Society (Hackathon) member
- IUT Debating Society member
